ABOUT

I am an SAP ABAP Consultant with 2.5+ years of experience in custom development, integration (IDocs, BAPIs, RFCs), enhancements, and data migration. I've contributed to both implementation and support projects across modules, with a focus on performance optimization and automation. I'm now seeking a challenging role to apply and expand my skills while driving business value.

EXPERIENCE

Orane Consulting Private Limited

April 2023 – April 2025

- Developed seamless SAP integrations using IDocs, BAPIs, RFCs, OData, and SAP CPI. Optimized performance with AMDP, CDS views, ABAP enhancements, and automated processes via SAP Workflow.

KPMG India

April 2025 – Present

- Delivering SAP banking integrations and real-time data flows using SAP CPI and OData. Driving automation, smart reporting, and performance tuning with modern ABAP, CDS, and AMDP.

PROJECTS

Conversion from ECC to S/4HANA

- Conducted comprehensive data migration using SAP Migration Cockpit and custom ABAP programs to ensure data integrity.
- Modified custom ABAP code for S/4HANA compatibility using ABAP Test Cockpit (ATC) and ABAP Development Tools (ADT).
- Streamlined business processes by optimizing existing workflows and implementing SAP Fiori apps for improved user experience.
- **Learnings:** SAP Migration Cockpit, ABAP Test Cockpit (ATC), SPDD, SPAU, ABAP Development Tools (ADT).

Claim Automation Integration

- Integrated Java portal with SAP system at DS Group.
- Managed JSON-formatted claims data transmission via Postman.
- Implemented parsing and processing solutions in SAP using BAPIs.
- Ensured reliable data integration with robust error handling and logging.
- **Learnings:** Interface, OOPs, BAPI's, Interactive reporting, Error Handling, JSON, Postman.

RE-FX CBS Integration

- Develop and manage integration processes between SAP RE-FX (Real Estate Management) and CBS (Contract Billing System) to ensure seamless data flow.
- Implemented data mapping and transformation logic to align RE-FX contract data with CBS billing requirements.
- Used IDocs and BAPIs to facilitate communication and data exchange between RE-FX and CBS.
- Conducted thorough testing of integration scenarios to ensure accurate and reliable data transfer between RE-FX and CBS.
- **Learnings:** Interface, RFC Integration, BAPI's, Error Handling.

EDUCATION

Amity School of Engineering and Technology (GGSIPU)
Bachelor of Technology(ME)

Aug 2017 – Jul 2021
GPA : 8.2
