SUMMARY

Full Stack .NET Developer with 2.5 years of proven experience delivering high-performance web applications using ASP.NET MVC, SQL Server, Angular, and JavaScript. Known for improving software performance by 30%+ and building scalable enterprise systems. Passionate about clean code, scalable architecture, and full SDLC involvement.

EXPERIENCE

Accsel Infotech Pvt Ltd -Mumbai,

Full Stack .Net Developer (2023 - Present)

- **Performance Leadership:** Designed and optimized high-availability SQL Server databases, reducing report load times by 45% and improving overall system performance by 30%
- **Security Excellence:** Implemented enterprise-grade security solutions including API-layer encryption, OAuth 2.0, and JWT authentication, reducing security vulnerabilities by 45%
- **Development Innovation:** Led development of 5 ASP.NET Core enterprise applications serving 10,000+ concurrent users, directly contributing to 20% increase in client revenue
- **Technical Leadership:** Mentored junior developers, conducted code reviews, and established best practices for clean code and scalable architecture
- **Client Collaboration:** Worked directly with stakeholders to gather requirements, provide technical solutions, and deliver projects within strict deadlines

SOFTMUSK INFO PVT LTD- Lucknow,

Junior .NET Developer (2022jan – August 2022)

- **Code Maintenance:** Maintained and enhanced existing .NET applications, ensuring high availability and performance standards
- **Data Management:** Handled large-scale data processing using advanced Data Tables, pagination, and efficient memory management techniques
- **API Integration:** Developed and consumed RESTful APIs for seamless frontend-backend communication, reducing load times by 35%

PROJECT HIGHLIGHTS

Hospital Management System

- Architected and developed comprehensive hospital management solution handling 500+ daily transactions
- **Modules Delivered:** Patient Registration & Billing, OPD/IPD Management, Laboratory Information System, Doctor Scheduling & Availability, Pharmacy Management, Inventory Control
- **Security Implementation:** Multi-level role-based access control, data encryption, audit trails, and HIPAA compliance measures
- **Performance Optimization:** Implemented database indexing and query optimization, achieving 60% faster report generation
- **Technology Stack:** ASP.NET Core MVC, SQL Server 2019, Angular 12, Bootstrap 5, Entity Framework Core, Signal for real-time updates

EDUCATION

B.Tech in Computer Science – University of Lucknow

- Relevant Coursework: Advanced Software Engineering, Database Management Systems, Web Technologies, System Design

CORE TECHNICAL SKILLS

- Programming Languages: .NET, C#, JavaScript (proficiency: Expert), Python ,
- Cloud & DevOps: Azure, AWS, Docker, Kubernetes, CI/CD Pipelines, Git/GitHub
- Architecture: Microservices, Design Patterns, SOLID Principles, Clean Architecture
- Databases: SQL Server, PostgreSQL, MySQL, MongoDB
- Web Technologies: ASP.NET, MVC, HTML, Angular, AJAX, AngularJS, jQuery
- Development Tools: Visual Studio, Git/GitHub, JIRA, Azure DevOps

OTHER

- Certifications: Microsoft Certified: .NET Developer Using .NET (2021), Certified Scrum Master (2020)
