OBJECTIVE:

Looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization, as well as to enhance my knowledge about new and emerging trends in the IT sector.

PROFESSIONAL SUMMARY:

- 2 years and 4 months of experience as a Software Developer at Anycode Technologies, Pune.
- Skilled in C#, ASP.NET MVC, ADO.NET, Web API, SQL Server (2014/2019), jQuery, CSS, HTML, Bootstrap, and Ajax.
- Hands-on knowledge of .NET Core for scalable web applications.
- Experience in developing web applications and working on end-to-end project coding.
- Worked on product enhancement, project maintenance, and bug fixing of existing code.
- Knowledge of Agile Scrum methodology process.
- Experience in Software Development Life Cycle (SDLC) involving development and testing.
- Created SQL stored procedures and functions using SQL Server.
- Follows SOLID principles for clean and maintainable code.
- Worked on Institution ERP System with good knowledge of implementation.

WORK EXPERIENCE:

Anycode Technologies Pvt. Ltd., Pune

April 2023 – Present

Software Developer

Responsibilities:

- Developed and maintained software modules using C#, ASP.NET MVC, Web API, SQL Server 2019, jQuery, Bootstrap.
- Handle project maintenance, bug fixing, and development.
- Coordinate with the project code prepared by other team members.
- Enhanced performance by optimizing SQL queries.
- Share technical knowledge with the team to improve collaboration.
- Implement minimum required coding as per requirement and enhance reusability.

PROJECTS:

SCM System (Supply Chain Management System)

Technologies: C#, ASP.NET MVC, ADO.NET, Web API, SQL Server (2014/2019), HTML, CSS, Bootstrap, jQuery, Ajax, N-Tier Architecture

Responsibilities: End-to-end software development: coding, debugging, enhancement, and client support.

Description: SCM (Supply Chain Management) is an inventory management application developed by Anycode for the clothing manufacturing and wholesale industry. It helps manage incoming and outgoing stock, streamline product tracking, and improve supply chain efficiency. SCM simplifies inventory control and supports better decision-making for manufacturers and wholesalers.

TECHNICAL SKILLS:

Programming Languages: C#, SQL, JavaScript, jQuery

Web Technologies: MVC, .NET Core, ADO.NET, Web API, HTML, CSS, Bootstrap, Ajax (using jQuery)

Microsoft Technologies: Visual Studio 2019/2022

Database: MS SQL Server 2014 / 2019

Documentation: MS Office, MS Excel

Tools: Visual Studio, VS Code, Postman, Zoom Meeting, AnyDesk, SQL Server
