PROFILE

Experienced SAP professional specializing in ABAP development and HANA database management. Skilled in optimizing business processes with a focus on efficiency. Proficient in ALV Reporting, OO-ABAP, forms and other ABAP objects. Looking for opportunities to contribute effectively through strong technical capabilities, with a focus on continuous learning and professional excellence.

WORK EXPERIENCE

SAP ABAP DEVELOPER (CAPGEMINI)

September 2022 - Present

- Developed custom ABAP programs to meet specific business needs by collaborating with client and functional team to gather requirements, designing detailed documentation and implementing code changes for SAP projects.
- Involved in development and support of RICEF Objects across MM and SD modules.
- Developed modular and reusable object-oriented components using OO-ABAP, particularly in ALV report frameworks using new syntax, ensuring cleaner, efficient, and maintainable code.
- Designed and developed Smart Forms and Adobe Forms for various business processes.
- Proficient in debugging custom programs, analyzing dump logs, optimizing database performance, and delivering fixes across RICEF objects ensuring smooth system operations.
- Developed CDS Views to enable real-time data access, leveraging associations, annotations, and calculations for simplified data modeling.
- Hands-on experience with SAP integration and enhancement techniques including IDoc development, BDC uploads, and BADI implementations to meet business-specific requirements.
