## Software Developer

✉ sagarbochare7226@gmail.com    ☎ 9834191084    📍 Pune, Maharashtra, 411048    📅 1999-07-09

### OBJECTIVE

---

A strong combination of technical and analytical skills to contribute to product development and meet client deliverables., and problem- solving skills to contribute to product development and deliver robust, scalable solutions. Looking to grow with a forward-thinking organization that values innovation and clean architecture.

### PROFESSIONAL SUMMARY

---

- **3 years of experience** as a Full Stack Developer at INAATECH Software Solution (Nov 2022 – Present).
- Strong expertise in **ASP.NET Core, Entity Framework Core, ADO.NET, MVC, C#, LINQ, SQL Server**, and **RESTful APIs**.
- Proficient in frontend technologies: **JavaScript, jQuery, Bootstrap, HTML5, ReactJS**, and **CSS3**.
- Skilled in **bug fixing, performance tuning**, and maintaining **clean, optimized, and high-quality code**.
- Adept at designing **normalized database schemas**, writing **complex stored procedures**, and working with **SQL Server**.
- Experienced in implementing **JWT-based authentication** and **role-based access control (RBAC)**.
- Comfortable working in **Agile/Scrum** environments with strong focus on **team collaboration** and **iterative delivery**.
- Sound knowledge of **Software Development Life Cycle (SDLC)** – including analysis, development, testing, deployment, and maintenance.
- Hands-on experience with **end-to-end development**, including **new feature implementation, product enhancement**, and **code maintenance**.

### TECHNICAL SKILLS

---

#### Programming Languages

C#, SQL, JavaScript, TypeScript, HTML5, CSS3, jQuery

#### Frontend Technologies

JavaScript, jQuery, Bootstrap, HTML5, CSS3, ReactJS, AJAX

#### Tools & DevOps

Git, GitHub, Azure DevOps, Postman, Visual Studio Code (VS Code), Visual Studio 2019 / 2022, SQL Server Management Studio (SSMS)

#### Web Technologies & Frameworks

ASP.NET Core, .NET Core, ASP.NET MVC, Web API, Entity Framework Core, Entity Framework, ASP.NET, ReactJS, Bootstrap, AJAX

#### Database

Microsoft SQL Server 201/2019, Stored Procedures, Query Optimization

### WORK EXPERIENCE

---

#### Software Developer, INNATECH Software Solution

02/2024

Job Role:-

- Work on end-to-end software development role.
- Work on Project Maintenance, Bug fixing of existing code and Development.  
Develop and maintain RESTful APIs in ASP.NET Core for ERP modules.
- Write and optimize SQL Server stored procedures, triggers, and functions.
- Refactor and design database schemas to ensure data consistency and scalability.  
Collaborate with front- end teams to integrate APIs using ReactJS and jQuery.

- Work on product enhancements, project maintenance, and bug fixing.
  - Implement authentication workflows using ASP.NET Identity and JWT Tokens.
- Utilized Postman and SQL Profiler for API testing and performance monitoring.

**Software Developer, Brilliant Info System Pvt**

11/2022

Job Role:-

- Learned and practice Basics of HTML, CSS, JavaScript, and Asp.Net for Front-end development.
- Gained Hands-on experience in SQL Sever, Including Writing basic queries joins, and creating tables. Develop Simple web Forms using ASP.NET Web Forms and Razor Pages.
- Write and optimize SQL Server stored procedures, triggers, and functions.
- Refactor and design database schemas to ensure data consistency and scalability.
- Worked with the Team on minor bug fixing, and UI improvements under senior developer guidance and bug fixing.
- Participated in code reviews and internal training sessions on .Net and SQL Best practises
- Utilized Postman and SQL Profiler for API testing and performance monito.

PROJECTS

**Supply Chain Management System(SCM),**

Technologies: ASP.NET Core, Entity Framework Core, ADO.NET, MVC, SQL Server, ReactJS, Bootstrap, JavaScript

- Working on an ERP application tailored for manufacturing companies, offering customizable modules based on client requirements. Core modules include Master, Technical, Order Process, Manufacturing, Service, Maintenance, Training, Engineering, Quality, Sales, Finance, and HR.
- Designed and developed RESTful APIs in ASP.NET Core for critical ERP components, including the Admin Module and Master Module.
- Created and optimized stored procedures in SQL Server to significantly improve database performance and reduce query execution time.
- Implemented secure JWT-based authentication and role-based user management, ensuring authorized access across modules.
- Collaborated with cross-functional teams including QA, designers, and Agile/Scrum environment to deliver features on time and within scope.
- Contributed to technical documentation, user manuals, and deployment instructions for smooth project delivery and support.

EDUCATION

**Bachelor of Engineering (B.E.) in Computer Engineering,**

2022

G.H. Raison Institute of Engineering and Technology, Pune

Graduation Year: 2022 | Percentage: 68%

**Higher Secondary Certificate (HSC) - Science, Jay Hind College Of Sanbhajinagr**

2018

Completion Year: 2018 | Percentage: 68%

**Secondary School Certificate (SSC), Shree Dhareshwr High School, Sanhbhajinagr**

2016

Completion Year: 2016 | Percentage: 86.88%
